

Year 4/5 Newsletter Spring 2011

Making things go

Welcome to our summer newsletter.

This half term the children in Year 4/5 will be finding out about energy, where it comes from, how we use it and the sustainability of it. We are also going to be looking at gases around us in science.

P.E. will be on Monday afternoon for 5CS and Wednesday afternoon 4/5IM. We will be outdoors as much as possible and with the weather warming up it is advisable that children have sun cream to put on and a sun hat or cap to wear as well as their P.E. kit (shorts, sand shoes and a T shirt).

Please remember the school now has its own web site and can be found at this address – www.chilternprimaryschool.org.uk.

READING – We want your children to make super progress in reading this year but they must read to someone everyday, it is very important that they have this special quiet time with an adult to practise what they have learnt in school.

PS It would be really helpful if you supported your children in learning their times tables, this half term we are learning the eight times table.

Thank you for your continued support.

Mrs Sansom and Mr Mayall
